

S7 — Pigouvian incidence: who pays the €545M and who would pay under marginal-cost pricing?
LIB retailers + wind overpay €266M; Conv-RZ + COR + hydro underpay €297M $\Rightarrow$ ~58% of the asymmetric-window total is misallocated.

**Actual vs Pigouvian payment by segment
(DA60/ID15, €545M cumulative excess)**

**Cross-segment redistribution
(positive = currently underpaying)**
