

S7 — Pigouvian incidence in the asymmetric window (direct F3 dual-pricing decomposition)
LIB retailers + wind overpay ~€141M | Conv-RZ + COR + hydro RE underpay ~€159M | rule structurally favours dispatchable segments

**Actual (direct dual-pricing) vs Pigouvian counterfactual
(DA60/ID15, system total ≈ €294M)**

**Cross-segment redistribution
(positive = currently UNDERpaying)**
